WORK EXPERIENCE

13/05/2022 – 04/04/2024 hyderabad, Pakistan

Web developer ARSI consultants

Front-End Development: Designed and implemented user-friendly interfaces using HTML, CSS, and JavaScript, ensuring a responsive and visually appealing experience across various devices and browsers.

Back-End Integration: Developed and maintained server-side logic and database management using languages such as PHP, Node.js, or Python, ensuring seamless data flow and application performance.

Version Control and Collaboration: Utilized Git for version control and collaborated with cross-functional teams to enhance web applications, streamline workflows, and implement best practices in coding and deployment.

05/04/2024 – CURRENT hyderabad

Web developer upwork

Website Performance Optimization: Analyzed and improved website performance by optimizing code, implementing caching strategies, and conducting regular audits to enhance loading speed and user experience.

Responsive Design Implementation: Created responsive web designs using frameworks like Bootstrap or Tailwind CSS, ensuring compatibility across various devices and screen sizes.

Testing and Debugging: Conducted thorough testing and debugging of web applications, utilizing tools like Chrome DevTools and automated testing frameworks to identify and resolve issues efficiently.
